

U.S. Patent Application No. 10/044,539
 Attorney Docket: 015389-002630US

DECLARATION

We,

Thomas R. Cech, a citizen of the United States, residing at 11516 MORNING
RIDE DRIVE, POTOMAC, MD 20854;

Joachim Linger, a citizen of Switzerland, residing at _____;

Toru Nakamura, a citizen of Japan, residing at _____;

Karen B. Chapman, a citizen of the United States, residing at _____;

Gregg B. Morin, a citizen of the United States residing at _____;

Calvin B. Harley, a citizen of Canada, residing at _____;

William H. Andrews, a citizen of the United States residing at _____;

declare:

That we made and conceived the invention described and claimed in patent application
 Serial No. 10/044,539 filed in the United States of America on January 11, 2002, titled HUMAN
 TELOMERASE CATALYTIC SUBUNIT: DIAGNOSTIC AND THERAPEUTIC METHODS;

That we made and conceived this invention while employed by Geron Corporation
 (Karen B. Chapman, Gregg B. Morin, Calvin B. Harley and William H. Andrews) or the
 University of Colorado/University Technology Corporation (Thomas R. Cech, Joachim Linger
 and Toru Nakamura); That the invention is related to the work we were employed to perform
 and was made within the scope of our employment duties; That the invention was made during
 working hours and with the use of facilities, equipment, materials, funds, information and
 services of Geron Corporation and the University of Colorado/University Technology
 Corporation.

U.S. Patent Application No. 10/044,539
Attorney Docket: 015389-002630US

That to the best of our knowledge and belief, the invention was not made or conceived in the course of, or in connection with, or under the terms of any contract, subcontract or arrangement entered into with or for the benefit of the United States Atomic Energy Commission or its successors: Energy Research and Development Administration or the Department of Energy.

The undersigned inventors declare further that all statements made herein of their own knowledge are true and that all statements made on information and belief are believed to be true and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Dear Ms. Jeter:

In response to the Notice mailed May 21, 2002, classifying the above-identified applications as "useful in the production or utilization of special nuclear material or atomic energy", attached are Declarations from each inventor:

- (i) setting forth the facts regarding the circumstances under which the invention was made; and
- (ii) establishing that the invention was not developed or conceived in connection with the United States Atomic Energy Commission or its successor, such as the Department of Energy.

Thomas R. Cech et al.
